

FORM / Lounge chair

PARTS INDEX

- 01 Seat frame
- 02 Seat cushion
- 03 Backrest
- 04 Rear left leg
- 05 Front left leg
- 06 Rear right leg
- 07 Front right leg
- 08 Left side rail
- 09 Right side rail

Seat frame

The seat frame supports the cushion and connects the four legs.

Seat cushion

A separate upholstered cushion rests on the seat frame.

Backrest

A broad back panel is supported by two uprights.

Rear left leg

A tapered visual approximation of one independent supporting leg.

Front left leg

A tapered visual approximation of one independent supporting leg.

Rear right leg

A tapered visual approximation of one independent supporting leg.

Front right leg

A tapered visual approximation of one independent supporting leg.

Left side rail

A side rail links the left leg pair.

Right side rail

A side rail links the right leg pair.

How the components fit

This illustration separates the named components for inspection. Positions, surface finishes and dimensions are a design concept. The order of movement is presentation staging, not a tested disassembly or assembly procedure.
