

BREEZE / Desk fan

PARTS INDEX

- 01 Weighted base
- 02 Support stem
- 03 Motor housing
- 04 Rear guard
- 05 Rotor and hub
- 06 Front guard
- 07 Control dial

Weighted base

A low circular base supports the fan.

Support stem

The support stem joins the base to the head.

Motor housing

The rear housing is represented by a rounded exterior body. Hidden motor internals are not modelled.

Rear guard

A ring and wire pattern represents the rear guard.

Rotor and hub

Three blades attach to a central hub. This is a static conceptual rotor.

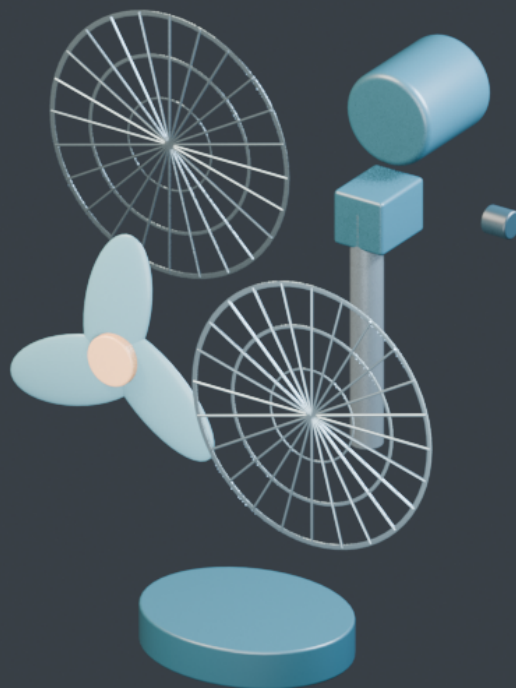

Front guard

The front guard covers the blade area with a decorative wire pattern.

Control dial

A side-mounted dial is represented as an exterior control only.

How the components fit

This illustration separates the named components for inspection. Positions, surface finishes and dimensions are a design concept. The order of movement is presentation staging, not a tested disassembly or assembly procedure.
